

People around me are wearing masks

There is a new virus called Coronavirus that is making people sick.

Because of the Coronavirus people are wearing masks to help stay safe.

When someone wears a mask I can only see their eyes. I cannot see their nose or mouth. They can still talk to me.

Some people are wearing masks in the shops and in other places.

People who support me will wear masks to keep me safe.

Seeing people wear masks is different but it is ok!

I can talk to people who support me if I am worried about seeing people in masks.
